

Curriculum Vitae

Prof. Dr. Christoph Enders

Prof. Enders' research focuses on questions on the philosophy of law, fundamental liberties and how they are reflected in current political and societal context. Also, he researches, publishes and lectures in the field of administrative, assembly, security and public building and planning law. Prof. Enders' major publications include among others a monograph about the concept of human dignity in the German Basic Law as well as several contributions to commentaries on constitutional- and assembly law.
